RoHS / REACH – Self-Commitment Declaration for the customers of Deutronic Elektronik GmbH

Dear Sir or Madam,

in reference to the regulation **2011/65/EU** and **2015/863/EU** of the European Parliament and Council for the regulation of the use of certain dangerous substances in electrical and electronic devices (**RoHS**) as well as the **EU chemicals regulation 2023/1132/EC (REACH)**, we hereby declare that no substances in accordance with the aforementioned regulations have been used in the manufacturing of the products and materials supplied by us to you, or that their maximum permissible concentration in homogeneous materials in percent by weight (weight %) has not been exceeded.

If the quantity of the restricted substances exceeds the legal limits, we will inform you according to the valid regulations.

Deutronic Elektronik GmbH neither produces substances nor preparations and is thus as a downstream user exempt from authorization in accordance with the **chemicals regulation 2023/1132/EC (REACH)**.

We asked our suppliers about the REACH and RoHS conformity and obtained confirmations for the compliance of the currently valid REACH regulations. Within the supplier chain, we are not aware the products we deliver to you contain substances with more than 0,1 weight % from the currently valid list of candidates (SVHC: Substances of very high concern). Furthermore, we have confirmations about the compliance to the current RoHS guideline from our suppliers.

The current SVHC list can be found under: <http://echa.europa.eu/de/candidate-list-table>

Within the supply chain, we obligate ourselves to inform you immediately about deviations from the currently valid RoHS and REACH regulations.

Our suppliers are obligated to check their products for compliance according to the currently valid regulations and inform us immediately about possible deviations.
